INSPIRATION

Inspired to double down on zero. This is our attempt to brew a true 0.00% ABV, 0.00% waste White Ale. Working together with PeelPioneers we will collect discarded Orange & Lemons from bars and restaurants and then use these botanicals to brew our very first 0.0% beer.

STORY

Drebbel's Diving Boat

When Dutch inventor Cornelis Drebbel took King James I down to the Thames in the first ever submarine made from a barrel and two boats, little did he know he would inspire a nation with his implausible feats. Inspired by his ability to create the impossible, this is our bid to double down on our White Ale: by brewing a zero alcohol and zero waste beer that tastes good and makes good use of orange and lemon surplus from bars & restaurants. Dive in!
