INSPIRATION

Inspired by our travels to continental beaches in Europe and slightly more tropical days in the Dutch Antilles we wanted to brew a beer inspired by the Island of Curaçao which would enable explorers to take life a little bit less serious.

STORY

The Healing Island

Sailors who fell ill on Dutch trading ships were left on the Island of Curaçao as they passed, upon their return they found the sailors had miraculously recovered. Our Summer Ale uses the secrets of the Island it's Vitamin C rich Curaçao orange to create the most replenishing of beers that will quench the thirst of sun filled days.
